## ITALIANS ARE PRESSING FOE ON WIDE FRONT

Austrians Compelled to Drop Back on Both Wings and Have Lost Heavily

Fighting Dying Down Around Verdun—German Offensive Near Riga Wins Ground.

By Associated Press Dispatch.  
Italy's great efforts on the Isonzo front is meeting with continued success. Rome reports officially and her troops are proceeding toward a realization of their objectives. Further ground has been gained on both north and south wings.

Austrian counter attacks are being repulsed. The Austrian losses in the first two days of the battle are given as 30,000.

The fighting on the Verdun front is dying down. The French objectives north of Verdun apparently have been attained and no infantry action in this sector are reported. The number of prisoners has reached 7,639. The French also have captured 24 cannons and more than 200 machine guns.

The Germans are continuing vigorously and successfully their new offensive on the northern end of the Russian front. The official report shows a Russian withdrawal of five miles along the coast in the direction of Riga.

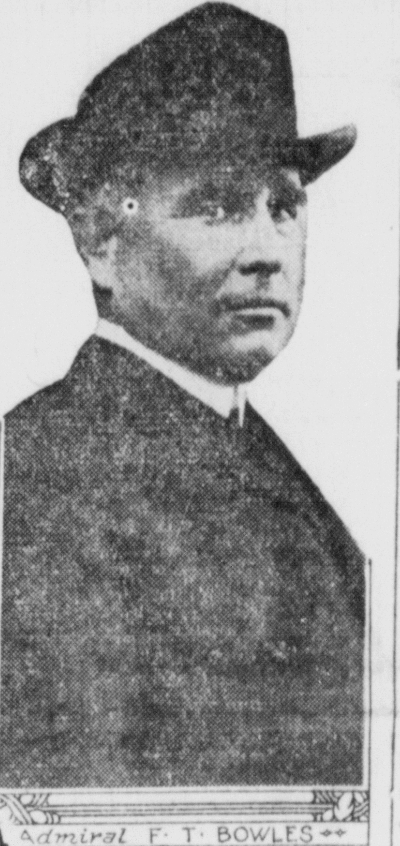

Berlin gives few details of this action and it is not yet clear whether the Germans have committed themselves to a sustained offensive in the north.

Another car was commandeered and the Governor's party was expected here momentarily. The nature of the accident could not be ascertained.

Adjutant General Wood is not accompanying the Governor into Cincinnati, but is with the Governor's car. It is not known whether he was injured.

Petrograd, August 23.—The Russian provisional government has postponed until November 25 the election. The first meeting of the assembly will not be held until December 11.

SHIP EXPERT NOW SPECIAL EMERGENCY AID IN FLEET WORK

Rear Admiral Francis T. Bowles, retired, whose picture is reproduced here, and Chief Constructor Elliott Snow of the navy were named special assistants to Rear Admiral Capps, general manager of the emergency fleet corporation. Admiral Bowles was chief constructor of the navy in 1901-3.

Admiral Bowles was at one time president of the Fore River Shipbuilding company, and Constructor Snow has been in charge of navy construction at Philadelphia.

Admiral Bowles will direct the work of speeding up construction on ships building in American yards taken by the Fleet corporation. Constructor Snow will act as his aid.

By Associated Press Dispatch.  
BOSTON, AUGUST 23.—THE LEYLAND LINER DEVONIAN, WHICH LEFT AN ATLANTIC PORT JULY 28 HAS BEEN SUNK, PRESUMABLY BY A GERMAN SUBMARINE.

OFFICERS OF THE LINE TODAY CONFIRMED A REPORT THAT THE BOAT WAS LOST, BUT STATED THEY HAD RECEIVED NO WORD AS TO THE SAFETY OF THE CREW.

GARFIELD TO DECIDE TODAY

By Associated Press Dispatch.  
Washington, August 23.—Harry A. Garfield, of Williams College who has been under consideration for coal administrator, had an engagement with President Wilson late today and it was believed he would decide whether to take the place.

FLAT FEET HELD NO JUST CAUSE  
Columbus, O., August 23.—(Associated Press Dispatch)—Instructions have been issued to draft boards at the order of Provost Marshal General Crowder that the examination of men with "flat feet" be held to a minimum.

Only men seriously impaired where defects would interfere with duties as a soldier should be rejected, the order says.

60,000 STILL HOMELESS IN BURNED CITY  
British Military Authorities Care for 30,000 Refugees—Water Scarce.

(Associated Press Cable.)  
London, August 23.—The first detailed account of the fire at Saloniki is contained in a dispatch from that city, which says that 60,000 are homeless and that property loss is enormous. Insurance companies are interested to from two to three million pounds.

The military rendered all possible aid, but the scarcity of water made it hopeless to attempt to subdue the flames. Refugees are camping on the outskirts of the town. The destitute are being cared for by the allies, the British having 30,000 in their charge.

Food and fresh water are very scarce. The whole front from the custom house to the famous white tower, including St. Dimitri church, and several other churches, was destroyed.

G. A. R. ELECTS NEW OFFICERS

By Associated Press Dispatch.  
Boston, August 23.—Orlando A. Sommers, of Kokomo, Indiana, was elected commander-in-chief of the G. A. R. at the closing session of the annual national encampment today. There was no other candidate and the election was by acclamation.

Brigadier General John A. Clem, U. S. A., retired, who enlisted in the 22nd Michigan Infantry as a drummer boy at the age of 11, was elected senior vice commander-in-chief. He was the only candidate.

The convention formally ratified the selection of Portland, Oregon, for the encampment next year.

SEEKING TO AVERT STRIKE

By Associated Press Dispatch.  
Birmingham, Ala., August 23.—Confederates seeking to avert the threatened strike of 28,000 soft coal miners were begun here today by Secretary Wilson of the Department of Labor, with coal operators and workers.

The main point of contention is the demand by the miners for the recognition of the union. This it is stated by the operators, will not be granted.

Patriotic Young Woman Adds Knitting to Her Red Cross Work

KNITTING FOR THE SOLDIERS IN HER HOURS OF LEISURE

Not satisfied with undergoing the severe training of a Red Cross nurse preparatory to service abroad, this pretty young woman busies her fingers with knitting in her few leisure hours. Appeals are being issued by many organized bodies for mufflers, sweaters, wristlets, head protectors, etc., for the use of the men in the trenches and on shipboard, and the women of the country are responding nobly. One of the most interesting of the responses is that of business women in the large cities who occupy their time on trolley cars, elevated and subway railroads, etc., with knitting for the soldiers and sailors.

## OFFICIALS DECLARE ANOTHER CRISIS IN RUSSIA APPROACHES

"Open Conflict" Is Hinted at By the Russian Press, Which Discusses Coming Assembly

German Intrigue Is Busy Endeavoring to Unseat Provisional Government

(Associated Press Cable.)  
Petrograd, August 23.—As the day approaches for the opening of the "extraordinary national council," at Moscow, the newspapers are full of speculation concerning expected dramatic announcements of events.

Judging from present indications the Congress is expected to take the form of a struggle with the Cabinet, backed by socialists and those averse to the new government.

This view is taken by the Petrograd and Moscow press which declare that if no agreement is reached between the groups, conflict must follow.

First steps already have been taken toward vigorous action by the malcontents.

Conferences were held under the chairmanship of M. Rodzianko, at which the differences between the government and the bourgeoisie was sharply emphasized, the only exception being made for Premier Kerensky.

sky, whom some of the speakers acclaim as capable of saving the country on the condition that he liberate himself from socialists and the council of deputies.

RUSSIAN SITUATION BECOMES SERIOUS

By Associated Press Dispatch.  
Washington, August 23.—The situation in Russia continued as the center of war interest today with the mystery surrounding the nature of official dispatches still undispelled.

Today's dispatches from the Russian capital referring to speculation in Petrograd and Moscow concerning "excited dramatic announcements" and expressing the view of the press "if no agreement is reached between the contending groups open conflict must follow" were taken to support interpretation of dispatches as relating to the political conditions and probably undercurrents of German intrigue working for the unseating of Premier Kerensky with a counter revolution seeking to reestablish, or the breaking down of the provisional government and resulting chaos.

Whether the official advices deal with an alarming need for the physical support of Russia by her allies, was not established. American officials frankly admit their uneasiness over the tenor of the confidential advices.

AVIATOR KILLED

(By American Press)  
Paris, Aug. 23.—Corporal Oliver Chadwick of Lowell, Mass., member of the French aerial squadron, was killed in an air fight over Belgium. Chadwick had previously been reported missing. Chadwick is the eighth of the American aviators serving with the French army to be killed.

## MIGHT ALONE WILL FAIL ADMITS NEW GERMAN SECRETARY

MORE GERMAN "KULTUR" IS MANIFESTED

German Aviators Bombard Red Cross Hospital, Knowingly, Killing Wounded and Many Nurses.

(Associated Press Cable.)  
On the French Front, August 23.—The incendiary bombs which were dropped by German aviators on two hospitals behind Verdun on Sunday, killed 10 wounded men, one woman nurse and 19 trained male nurses.

They wounded 49 male nurses and inflicted further injuries on patients suffering from wounds received in battle, many of whom rushed naked into nearby fields in an attempt to find shelter.

Meanwhile the German aviators circled about in the air for 30 minutes firing their machine guns at hospital orderlies who were endeavoring to extinguish the flames.

The nurses had just finished bandaging 180 wounded Germans. The bombs were dropped from a height of 300 yards.

The Red Cross sign was painted on the roof, and the Germans knew of the hospital, which had been in existence more than a year.

POLES RESIGN FROM LEGION

(Associated Press Cable.)  
Copenhagen, August 23.—The officers and men of the first regiment of the Polish Legion have resigned in a body. The commander has accepted the resignation and has sent the regiment to Galicia to be disbanded.

Austrian subjects in the regiment will be placed at the disposal of the Austrian military authorities.

NO SULPHUR FOR CANADA

By Associated Press Dispatch.  
Washington, August 23.—An embargo has been placed on exports of sulphur to Canada in order that the supply for war needs of the United States may not be unduly depleted.

Canadian wood pulp mills furnishing supplies for about three-fourths of the newsprint paper used in the United States will be seriously affected.

Dr. VonKuehlmann, in Maiden Speech Before Reichstag Committee, Advocates New Policy.

Says Cordial Relations With Enemies, Insofar as Possible, Must Be Maintained.

(Associated Press Cable.)  
Amsterdam, August 23.—"A policy based on might alone and not on right is doomed to failure from the beginning," was the interesting admission made by Dr. Richard von Kuehlmann, German Imperial Foreign Secretary in his maiden speech to the main committee of the Reichstag yesterday.

The new secretary, according to a telegram from Berlin dwelt on the tremendous responsibility in assuring office "when the country is beset by the mightiest of enemies without and grave difficulties within."

Dr. von Kuehlmann laid down following program: First, the maintenance of cordial relations with the allies; second, and with the neutrals, "whose rights and necessary conditions of existence we shall be most careful to respect as far as is compatible with enemy trickery and our military needs."

## BIG INCOMES MAY BE HARD HIT BY WAR

Many Senators Support Amendment to Assess Heavier Taxes on War Profits and Incomes.

By Associated Press Dispatch.  
Washington, August 23.—Making war profits and millionaire incomes pay the greater part of the war cost engrossed the Senate today in its consideration of the war tax bill.

Yesterday the amendment restored the House amendment for higher rates of income taxation, and ran the tax on millionaires up to 67 per cent. Senator LaFollette's proposal for still higher rates came up today with many Senators supporting them.

By these amendments the Wisconsin Senator proposes to increase the income tax returns to more than \$700,000,000 a year, in addition to the present law.

Of the net increases of 44 per cent proposed in income surtaxes Senator Simmons, chairman of the Finance Committee, said the LaFollette substitute would take 25 per cent of the returns from incomes under \$30,000.

## BACK IS BROKEN WHILE DRIVING WAGON IN SHED

Stanley Leaverton, well known young farmer, formerly of Green township, is in a serious condition at his home on the R.L. Sollars farm on the Snow Hill pike, suffering of a broken back, and it will be many weary weeks before he is able to leave his bed, providing no unforeseen complications develop.

Mr. Leaverton had but recently moved to the Sollars farm, and was not familiar with the surroundings, so that while hauling a load of wheat into a shed he miscalculated the height of the beam over the doorway and remaining on the seat of the wagon, crouched over in order to get into the shed, and was caught in this position and two vertebrae of his spinal column dislocated.

Others working near him rushed to his assistance and a physician from this city was called. It required the efforts of the physician and three or four men to reduce the fracture, after which the man's body was placed in a plaster of paris cast so that he could not move and probably cause fatal injuries at the spot where the spinal column had been dislocated.

How the man escaped instant death is a mystery, as such injuries invariably result fatally within a very short time after they occur, providing the spinal cord is seriously injured.

It is expected that Mr. Leaverton will eventually recover from the dangerous injuries.

## FAYETTE CANNING PLANT BEGINS WORK

The Fayette Canning Company began canning corn Thursday morning. An unusually large number of persons applied for jobs, more than twice the number required. The corn is coming in slow but within a few days will be taking the full capacity of the plant.

This year the canning factory has abolished both capers and installed automatic cappers which reduces labor to the minimum. About 75 persons are employed at the plant.

The Sears-Nichols Canning Company will begin next Monday.

## FINAL CONCERT IS LARGELY ATTENDED

The final concert of the season was given Wednesday night, and Whelpley's Band acquitted itself with honors, the series of concerts being the most thoroughly enjoyable of any in recent years, and greatly appreciated by all citizens who attended.

The concert of Wednesday night was even better than the splendid concert of a week ago, when a large number of strangers were in the city and were free in their praise of the work of the band.

However, a large number of local citizens will have the opportunity of enjoying a number of other open air concerts, which are to be given by three different bands upon different occasions, at the Rogers Park, north of Bloomingburg.

The first of the series of concerts at the Rogers Park will be given by

the Whelpley Band, August 31st; the second concert by Price's Premier Band, September 7th, and The European Concert Company will give the third concert.

## APPELLATE JUDGES ARE ON VACATION

Judges James I. Allread, Albert H. Kunkle and Harry L. Ferneding, of the Court of Appeals, have finished their work for the present and are now on a vacation of three or four weeks.

The judges have been busy all summer and expect to resume work about the middle of September.

## FORD AUTOMOBILE STOLEN FROM SHED ON TEMPLE STREET

Between three and four o'clock Thursday morning some unknown party entered the Os Briggs private garage on East Temple street and drove his Ford automobile away, going out the alley onto Paint street and then headed eastward.

The machine was a five-passenger, with demountable rim wheels, and a 1917 model. It bore license tag No. 76309.

The machine had been driven into the garage and the door fastened as usual.

The door had been forced and the machine backed out and headed toward Paint street so that it would not pass Mr. Briggs' residence and thereby give the alarm.

Persons residing on Paint street heard the machine as it left, but thought nothing of the matter until they learned that the machine had been stolen.

The thief evidently endeavored to steal Dr. P. E. Decatur's five-passenger Ford, before locating the Briggs machine, as the door had been forced and the machine tampered with. A patent lock on the switch-box is all that saved his machine from being stolen.

Being foiled in the efforts to obtain the Dr. Decatur car, the thief went across the alley and had little difficulty in driving off the machine owned by Mr. Briggs.

## DRIVING 'EM OUT OF CHILLICOTHE

Chillicothe is coming to herself with a start. This is evidenced by the action of the authorities in dealing promptly and decisively with all loafers and tough characters which pour into the city in an effort to prey off the public.

Such characters are now herded up and escorted to the corporation line and ordered to dig and stay "dug" or also go to the workhouse.

The method is proving effective and is ridding the town of a horde of undesirables, some of whom will probably light in this city unless carefully watched.

Thirty-five drunks faced the mayor in Chillicothe Wednesday.

## PIKE IMPROVEMENT DETERMINED UPON

The county commissioners, upon petition, have decided to improve the Sabina-Leesburg pike, in Concord township, by macadamizing. Three and one-fourth miles will be improved.

## CAMP ALMOST READY FOR USE

Chillicothe, O., August 23.—According to today's progress report Camp Sherman is three-fourths done and is without a doubt second in the United States, with reference to completion of camps for the care of the new army.

In the progress report is the electrical work, 44; plumbing, 44; bakery, 97; hospital, 18; refrigerating plant, 5; roads, 67; water distribution, 49; main sewers, 70; well, 70; sewage disposal, 60; lateral sewers, 50.

Instead of General Glenn coming here to give the camp the once over on Thursday, it is now unofficially reported that he will be here either Friday or Saturday.

## ANNUAL REUNION CHERRINGTON FAMILY

The Ohio branch of the Cherrington family is having its annual reunion today in the fair ground at Gallipolis, Ohio, near where the family first settled in 1805.

That some of the Cherringtons are still in Gallia County is evident from the fact that the pastor of the Gallipolis Methodist Episcopal Church is Rev. W. L. Cherrington, the county clerk of courts is Fred Cherrington and the prosecuting attorney is Henry W. Cherrington, grand nephew of the late Judge Cherrington of Ironton who for twenty-five years was circuit judge in this part of the state.

William Cherrington the head of the Ohio family had 16 children. The oldest Thomas had 309 descendants, the second son John has had over 200 descendants.

John H. Cherrington now residing in Gallipolis is one of the party of soldiers who captured Jefferson Davis and received a part of the \$100,000 prize offered by the government for Davis' capture.

Rev. Arthur P. Cherrington and mother, Mrs. Elizabeth Cherrington, of this city are in attendance at the reunion.

## GRANGE TO HOLD ANNUAL PICNIC

The Grange and Farmers' Annual Picnic at East Monroe will be held at the picnic grounds at East Monroe on Thursday, September 6th.

This is a gathering that attracts a large attendance from the section of the country, and the picnic this year promises to be not only an interesting, but profitable one as well to the farmers attending.

A program of interest for the day has been prepared and is as follows:

10:30—Concert by Price's Premier Band.

Picnic Dinner

1:30 Concert by Price's Premier Band.

Invocation, Music.

Address of Welcome—Rev. H. L. Leasure.

Address—Harry A. Caton.

The management is offering premiums for a display of small grains, corn, vegetables and fruits, which insure quite a showing in that line.

Mr. Elba A. Carson, one of the prominent farmers of that section, is one of the men back of the picnic.

## CORPORAL LEE IS BACK FROM CAMP

Corporal Otto Lee, of Company M, is back from camp on a short leave of absence, and will return to camp Friday.

Corporal Lee reports all of the men of the company in the very best of health and good spirits, and that they are enjoying camp life very much.

The troops expect to remain in their present camp until some time in September, when they will move to Mineola, Long Island, for a brief stay before further activities.

## COMMERCIAL BANK GETS BOND ISSUE

The Commercial Bank, at its bid of par and accrued interest obtained the \$12,700 in street improvement bonds awarded by the city this week and was the only banking house making a bid on the issue.

Ten thousand dollars of the bonds was for street improvement work, including the city's portion of Market street paving and the construction of the link on South Fayette street.

Two thousand seven hundred dollars was for the city's portion of Ogle and Delaware streets.

## CORN BREAD WILL HELP WIN THE WAR

By Associated Press Dispatch.  
Columbus, O., August 23.—The Ohio Defense Council today issued the following bulletin on how citizens can assist the United States in winning the war:

"Save the wheat, says Herbert Hoover, the nation's food controller. "Corn bread once a week will help. Not that it's any cheaper. But wheat bread can be made and transported easily—which makes it a military necessity for our boys and the men in the Allied armies fighting Germany in the trenches.

"Here's a good old southern corn bread recipe; try it:  
"Two cups corn meal; 1 1/2 cups thick sour milk; 3/4 teaspoon soda; one teaspoon salt; one egg and three teaspoons melted meat drippings. Beat egg in mixing bowl, add milk.

## THIS LASSIE SIMPLY LOVES HER NEW SWEATER

Rust brown border with buff and white stripes makes a serviceable wool sweater for small girls to romp in. This child wears hers with a rust brown velour hat built for play hours.

sift in meal with soda and salt and add melted fat. Beat quickly until well mixed; pour into hot, well greased pan and bake in moderately hot oven. Cut in squares and serve hot. Egg may be omitted."

## COMMON ENEMY AGAIN REPORTED

By Associated Press Dispatch.  
Columbus, O., August 23.—Here is today's tip from the Ohio Defense Council on how you can help your country win the war:

"Farmers, Beware! The grasshopper, army worm and chinch bug are working overtime this summer to aid the German submarines in their attempt to starve out American allies.

"War on them is a patriotic duty, says N. E. Shaw, Ohio secretary of agriculture. Hundreds of carloads of grain, hay and other crops can be rescued from grasshoppers alone by a systematic campaign throughout the country.

"Plow early," says Shaw, "to destroy next year's crop of these destructive agents. Destroy their eggs by plowing and discharring all stubble fields and waste places. Organize to poison the bugs."

## STRAYED OR STOLEN

A Hampshire sow (black with white belt) from the farm of E. Clark McCoy. Last seen 4 weeks ago near the McCoy home in the pike. She was due to farrow and now should have pigs. A liberal reward will be paid for any information leading to her recovery. Notify

## Senator LaFollette

In times of great national crises like the present, it is, practically, impossible for the unworthy and not properly balanced public servant to "get by" without exposing his unfitness.

Several members of the national senate—a legislative body which we have always prided ourselves in calling the highest and best on earth, have furnished already, and insist on piling up, proof of their unworthiness.

The most conspicuous example of failure to measure up is that of Senator LaFollette of Wisconsin.

He has been wrong—woefully wrong—on every great public question that has arisen since the crisis with Germany became acute. He has been growing more radical in his opposition to the national administration more hostile in his attitude toward the nation, more bitter in his denunciations with each day that passes until now his utterances are but little short of treasonable.

In times of peace the people tolerated LaFollette with patience—he was regarded as an honest, brilliant but not very well balanced extremist who compensated for his eccentricities of conduct by, once in a while, forcing the sedate old senate to action more in keeping with the demands of the time.

Since Germany's conduct made it impossible to prevent a severance of diplomatic relations, Senator LaFollette's attitude has been such as to warrant doubt of both his honesty of purpose and his loyalty to the nation.

There are men not so conspicuous as LaFollette in the senate whose conduct is no less reprehensible but the Senator from Wisconsin is and has been the leader of, and spokesman for, the handful of men who are not in accord with the nation's program.

## An "Old-fashioned" Rain

The rains of Tuesday night and Wednesday were the kind that we love to call, when everything is comfortable and cozy inside the house and all the home folks gathered around, as "old fashioned."

Whether rains have, of late years changed their styles or not, none of us can tell positively. Reason tells us that they have not—that rains now days are just like they have always been. We have the dashing, driving storms and the quiet steady rains, where every drop that falls from the clouds soaks in and goes right to the spot.

No storm—no wind, no lightning—just a quiet steady downpour not falling faster than the parched earth can drink it up. That's the kind of a rain we had Tuesday night—the "old fashioned" kind.

Perhaps that expression is born, unconsciously, of our childhood memories of the rain on the old home roof—coming after the big trials of a childhood day were over, after the evening tasks were concluded, reckoning with father and mother, when the books of childhood days had been balanced and everything made to come out right by an entry of forgiveness by the keeper of the accounts—that was the time when the rain on the roof sounded best—that's the time we remember clearly.

Rains have never seemed just the same since and perhaps that's the reason we love to call these gentle downpours "old fashioned."

But no matter what the reason is—the showers of Tuesday and Wednesday came just at the time they were needed most and old fashioned or new fashioned they met the requirement of the time.

## Italy Proves Equal

The success of the Italian offensive against the Austro-German forces indicates strongly that at last the soldiers of sunny Italy have overcome the tremendous obstacles which nature had placed in their pathway and are to be heard from now as an available, aggressive fighting force.

The world has been so occupied with the disaster of the Russian disintegration, offensives on the western front and brilliant counter attacks at Verdun that the persistent and brilliant progress of the Italian troops has not been fully understood nor appreciated.

Battling far above the clouds, moving armies and artillery across mountain ranges and scaling lofty mountain peaks, in the combating the cold and snow of the higher altitudes in the effort to get across the barriers and out into the open battle ground has been the, supposedly impossible, task of the Italians.

The gigantic work has been accomplished though. Roads have been surveyed and built—new passes in the high mountain ranges discovered and made available to the army—inch by inch the front has been pushed forward and the flanks guarded—until now the day of Italian victory, the reward for patient tireless work seems to be approaching.

Like every other one of the great nations involved in the struggle against autocracy the Italians have proven equal and have gone forward irresistibly with the great tasks allotted to them.

## Poetry For Today

### LOYALTY.

This is no time to quibble or to fool;  
To argue over who was wrong, who right;  
To measure fealty with a worn foot rule;  
To ask: "Shall we keep still or shall we fight?"  
The Clock of Fate has struck; the hour is here;  
War is upon us, not far away;  
One question only rises, clear and clear:  
"How may I serve my country, day by day?"

Not all of us may join the khaki'd throng  
Of those who answer and go forth to stem  
The tide of war. But we can all be strong  
And steady in our loyalty to them!  
Not with unfettered thought, or tongue let loose  
In bitterness and hate—a childish game!—  
But with a faith, untroubled by abuse  
That honors those who put the rest to shame!

There is no middle ground on which to stand;  
We've done with useless pro-and-con debates;  
The one-time friend, so welcome in this land,  
Has turned upon us at our very gates.  
There is no way, with honor, to stand back—  
Real patriotism isn't cool—then hot,  
You cannot trim the flag to fit your lack;  
You are American—or else you're not!

—Jack Appleton.

## Weather Report

Washington, August 23. — Ohio and West Virginia: Thunder showers Thursday; Friday fair and cooler. Indiana — Fair in north, showers in south portion Thursday; Friday fair and cooler. Illinois — Partly cloudy Thursday, probably local thunder showers; cooler by night in north and west portions; Friday fair; cooler in east portions.

## DUMA HEAD SENDS REPLY

By Associated Press Dispatch.

Columbus, O., August 23.—Secretary of State Fulton today received from M. Rodziako, president of the Russian Duma, acknowledgement of the receipt of a resolution by the Ohio Legislature of March 21st congratulating the Russian people on the establishment of a Republic.

The acknowledgement expresses the fullest confidence in the Russian people as being capable of self-government.

## COMPANY M TEAM LOSES GAME TO FAST OPPONENTS

Were Not Half Licked, However, and Will Meet Fast Company E Team Saturday on Camp Diamond—"One of the Boys" Writes of Camp Sport.

August 21, 1917.

That the members of the company ball team appreciate the equipment given to them by the citizens of their home town, is shown by the way they are making use of the same and the class of ball they are playing.

The team played its second game with the team from Port Clinton, which is conceded to be the fastest ball team in this section of the state. And while they dropped the game in a two to one score to Port Clinton, it was said to be the fastest game played on the Port Clinton diamond this season. The teams were very evenly matched, with the company team holding the edge for class but always drawing the unlucky breaks.

Orryl Smith for the company team was the star of the game, with his work on the mound, striking out sixteen of the opposing team. Phillips, the company's first baseman, drew the only hit for extra bases, driving out a two bagger in the seventh and scoring on an error by Port Clinton's short stop.

The Port Clinton team scored their two runs in the last half of the seventh, both being due to errors on the part of the company players.

Score:

1 2 3 4 5 6 7 8 9  
Company M .....9 0 0 0 0 0 1 0 0—1  
Port Clinton .....0 0 0 0 0 0 2 0 0—2  
Company M made 4 hits and 4 errors; Port Clinton, 2 hits and one error.

Batteries — Company M—"Dad" Smith and Taylor.  
Port Clinton — Bahnsen and Nieswander.

Two base hits — Phillips.  
The company team plays E company Saturday afternoon and another fast game is expected, as E company claims to have the fastest team in the regiment. We do not grant this claim and are out to show them.

Yours sincerely,  
ONE OF THE BOYS.

## WHELPLEY BAND WILL GO TO WILMINGTON

The Whelpley Band of this city will go to Wilmington next Thursday night to unite with the Wilmington band in giving a concert in that city, the members of the organization wishing to show their appreciation for the services rendered by members of the Wilmington band in the concert in this city, ten members of the Wilmington band being included with the Whelpley band in giving the concert here Wednesday night.

## LEASE RESIDENCE FOR NURSES' HOME

The residence of Mrs. Sarah Solars on East street has been rented by the management of the Fayette Hospital and will be used as a nurses' home. The crowded condition of the hospital has made this necessary.

It is expected that within a short time there will be more nurses in training at the hospital, and the present accommodations would not be sufficient in such case.

## CASE IS CARRIED TO APPEALS COURT

The attorneys for the plaintiffs in the Masonic Temple Company case have carried the case to the Court of Appeals on error. The decision was given in favor of the defendants, the Masonic Temple Company at the May session of the Court of Common Pleas.

The plaintiffs are, A. C. Henkle, Warren Ebert Co., Weightman & Co., The H. G. Coffman Lumber Co., Bryant and Sheets, The Chicago and Riverdale Lumber Co., and Roy Hager, administrator of the estate of George Robinson, deceased.

THE YOUNG WOMEN'S BIBLE CLASS OF STAUNTON WILL HOLD A MARKET AT SAMSON'S HARDWARE STORE, FORMERLY KNOWN AS JUNK & WILLET, FAYETTE AND MARKET STS. SATURDAY MORNING AT 9 A. M. EVERYTHING STRICTLY FRESH FROM THE COUNTRY. 199 12

SUNNYSIDE BIBLE CLASS  
The Sunnyside Bible Class will meet tonight at the home of Mrs. George Waters, on South Main street at 7:30 p. m.

In the Probate Court of Fayette, County, Ohio.

The State of Ohio Fayette County ss.

To whom it may concern:—

984 Blanche Draper

1070 Charles W. Stewart

1070 John M. Stewart

All persons interested in said accounts or Trusts in any way whatever will take notice that the same have been set for hearing on the 27th day of September, 1917, at or before which time exceptions may be filed to any of said accounts and the same will be heard at that date or at such other time as the Court may designate.

FRANK M. ALLEN,  
Probate Judge.

August 23rd, 1917.

## GUARD CAMP IS CHANGED

By Associated Press Dispatch.

Washington, August 23.—Indications at the war department today were that the 41st National Guard from Washington, Oregon, Montana and Wyoming would be sent to Camp Green at Charlotte, N. C. for training.

Camp Fremont, at Palo Alto, California has been abandoned because local health authorities insisted on a complete sewer system, which the war department considers unreasonable for a temporary camp.

## CAPT. CHAS. ALLEN RETURNS HOME FOR FEW DAYS' VISIT

Has Been Engaged in Buying Government Horses in the West, and Comes Back for the State Fair—Will Go to Southern Location.

Capt. Charles Allen came in from Kansas City, Mo., Wednesday night having been ordered from there to Camp Jackson, Columbia, S. Ca., where he will probably be stationed for some time.

There are now being built seven auxiliary remount depots, which are to be used as supply stations for the various cantonments. These are secondary considerations, which have come up since the cantonments were planned and are really in the nature of additions to them. Although separate and distinct posts they must be located not more than 5 miles from some parent cantonment.

Each will cover not less than 50 acres of land, with 1000 feet of railroad siding. Each organization includes 269 men, the personnel of the officers in charge Major, Captain, 1st and 2nd Lieutenants.

In connection with these stations there will be established schools for horse showing, harness making, driving of freight wagons, packing of mules and various activities in connection with supply trains.

Capt. Allen, who is a member of the State Board of Agriculture, will remain north until after the State Fair, at which he has charge of the speed department. He is looking very "fit" and is throwing himself into the government service with that same zeal and capability which is characteristic.

Capt. Allen during the six weeks of his stay in Kansas City traveled through Missouri, Kansas, Nebraska and Iowa. He reports the crops the greatest he has ever seen. Although Kansas' crops have suffered the late rains came in time to save them. The Kansas acreage of oats, owing to the frozen wheat of last winter, is immense, and is safely harvested.

## In Social Circles

Picturesque and possessing an attraction all its own, guests invited to "Cedar Hurst" always feel that they have been especially favored and this feeling reached the flood tide Wednesday evening when Mr. and Mrs. Ed Fite extended the hospitality of their cottage at this summer camp.

A blazing fire was built for a big roast, which was the feature of the evening of fun galore. The affair honored Mr. and Mrs. Clarence Frazer of Xenia, and Mrs. Hamer Conn. of Cleveland.

The other guests besides Mr. and Mrs. Frazer and Little son Andrew, and Mrs. Conn, daughters Eleanor and Louise, were: Mr. and Mrs. Clarence Craig; Mr. and Mrs. J. M. Baker; Mr. and Mrs. Dan McLean, daughter Mary; Mr. and Mrs. Earl McLean, son Willard; Mr. and Mrs. Earl Barnett, son Edgar Earl; Mr. and Mrs. Elias McCoy; Mr. Clarence Baer, Mrs. Walter Craig, son Thomas; Mrs. Roy Young; Richard Willis; Misses Amy Conn, Lavon Cockerill, Myrtle McCoy and Claribel Smith of Columbus.

Among the pleasurable events of Bloomingburg society this week was a one o'clock luncheon given by Mrs. Maude Howland, in compliment to a number of guests.

It was a pretty appointed affair of eight covers. Seated with the hostess were Mrs. Marion Sollars of Bayoneta, Ark., Mrs. Samuel McGuire of Atlanta, Ga., Mrs. George Angne of Akron, Mrs. Paul Carman, Selden; Mrs. Robert Allemang, of Leesburg; Mrs. J. Howard Jefferson, Miss Helen Haines.

Miss Kathleen Davis pleasantly entertained the J. S. Club with an informal party Wednesday afternoon.

Dainty refreshments were served. The additional guests besides the club girls were: Misses Mary and Elizabeth Dougherty of St. Louis, Mo. and Miss Naeka Nelson of Hillsboro.

Mrs. Thomas Blair entertained for dinner Tuesday Mrs. Clint Robinette and two children Della and Imogene of Dayton, Mrs. Dora Davey of Bloomingburg, Mr. and Mrs. Wm. Rayburn of Rock Mills and Miss McCann of Rock Mills and Mr. Pence of Chillicothe.

Mrs. Margaret Colwell gave a theater party Wednesday night in special compliment to her cousin, Miss Katharine Poore, of Portsmouth and also honoring Miss Adrien Arthur, both the guests of Miss Maxine Kibler.

A merry party of seven couples took in June Caprice in "Patsy" at the Palace and spent a subsequent

hour at the Hughey confectionery where refreshment ices were served and the band concert enjoyed.

The young guests, who fully appreciated Mrs. Colwell's entertainment, were Misses Poore, Arthur, Kibler, Virginia Dove, Ruth Brown, Alice Parrott, Mary Brownell, George Simpson Allen, of Chicago; Groves Davis, Charles Fabb, Jess Hagler, Ira Barchet, David Craig, Chine Deere, Tom Rogers.

The regular meeting of Sugar Grove W. C. T. U. was held at the home of Mrs. Bertha Baker, on the Lewis pike, Wednesday afternoon.

The rainy day interfered with the attendance, but those who braved it were repaid in the interest of the program and the pleasure of the social hour.

The day's subject was "Suffrage," Mrs. Pearl Darlington leader.

There were four excellent papers. Mrs. Dulcie Elliott, discussed "Suffrage Morals," Mrs. Ruth Sturgeon, "Womanhood and Citizenship," Mrs. Bertha Baker, "Women and Prohibition," and Mrs. Clara Campbell, "What Some Men Say."

The hostess was assisted by Mrs. Clara Campbell in serving dainty refreshments.

Complimenting Mrs. George Angne of Akron, (nee Mary Jefferson) Mrs. Wm. E. Jefferson and daughter Mrs. Robert Allemang, of Leesburg, entertained at a delightful dinner Wednesday at their home in Bloomingburg.

A graceful basket of honeysuckle adorned the center of the table.

Seated at the table with the hostess and honor guest were Mr. and Mrs. R. J. Jefferson, Mr. and Mrs. Howard Jefferson, daughters, Jane and Charlotte; Mrs. Willard Creamer and son Robert; Miss Marie Melvin of this city; Elliott and John Jefferson, Jean Allemang.

The second annual Reid reunion was held Wednesday at the pretty Mayo grove on the Bogus road.

Seventy-six relatives enjoyed a sumptuous basket dinner at noon and a musical program, both vocal and instrumental, in the afternoon.

The out of town guests were: Mrs. Clarence Crone of Muncie, Ind.; Mr. Howard Reid and family of Book walter; Mr. Wm. Reid of Jeffersonville; Misses Verna and Glenna Schlitt of Columbus.

Mrs. C. A. Slagle entertained with a very enjoyable dinner Tuesday, in honor of Mrs. Harry Anthony of Council Bluffs, Iowa, who is the guest of Mrs. C. W. Bush.

The guests besides the hostess and honor guests were Mr. and Mrs. Gilbert Perrill and children, Mr. and

Mrs. Marvin Slagle and Mrs. C. W. Bush.

The Wesley Mite Society held an interesting meeting Wednesday night in place of their usual afternoon meeting, at the home of Mrs. Ola Boyer.

In the absence of the president, Mrs. Will Bishop had the meeting in charge.

Quite an enjoyable program was rendered, Miss Eleanor McClain played a piano solo, Mrs. Nye Gregg gave a vocal solo and Mrs. Pope Davis gave two readings. Miss Corda McCafferty gave a fine talk on her trip through the Mammoth Caves in Kentucky.

Summer refreshments were served.

Mr. and Mrs. Frank Jamison gave a farewell dinner in honor of two of Washington's young men soon to be called to the colors, Messrs Howard Porter and George Fultz. Mrs. Fultz was also included.

It was an elaborate affair of beautiful decorations and numerous courses.

A center mirror reflected the gleams from a cut glass electrolite and on either side tall vases of pink asters and gladioli were linked to the mirror by graceful garlands of smilax, which extended to the ends of the table.

## PERSONALS

Miss Ada Woodward went to Cincinnati Thursday to spend the week end.

## ORDER 540 FORDS FOR THIS COUNTY

The Orman Motor Company has ordered, or rather been allotted 540 Ford automobiles for their territory during the fiscal year, and this number is expected to be about half enough to supply the demand.

The company wanted at least 1,000 cars for the year, but only a certain number could be obtained when the general allotment was made by the Ford Motor Company.

## SUDDEN DEATH

Word has been received of the death of Dr. George Matson, for many years secretary of the Ohio State Board of Medical Registration, which occurred in the Union Station at Columbus, caused by a sudden attack of the heart.

He was a son of Mr. and Mrs. Geo. Matson, of New Holland.

## WORK PROGRESSING ON HUGE GENERATOR

Excavation work has been completed for the foundation of the monster new generating unit at the Washington Gas and Electric Company's plant. The work of laying the base was started Thursday.

The unit is one of the largest in this section of the state, and in shipping from the Atlantic seaboard several flat cars were required for transportation.

Two ten foot fly wheels weighing many tons will be used on the generator.

It will be several weeks before the generator will be ready for use.

QUALITY PLUS HOSPITALITY

# CLINTON BAPTIST ASSOCIATION IN ANNUAL SESSION

Sugar Creek Baptist Church the Place of Interesting Sessions Which Close Today—Harry Wood Again Honored—Fried Chicken Abundant.

The Clinton Baptist Association is holding its annual meeting this year at the Sugar Creek Baptist Church, with the closing session today. It is composed of about twenty churches. Wednesday was devoted to the Sunday School and the work of the B. Y. P. U.

Harry Wood, as president of the Sunday School Convention, opened the session with devotional services. He holds the unusual honor of being elected president for the fifth successive year, and is a splendid executive.

Rev. Ray C. Millan of Richmond Dale preached the opening sermon taking for his subject, "Forward." It was an excellent discourse.

The afternoon session was opened by J. Howard Hicks with a brief devotional service.

The addresses which followed were timely, informing, and inspiring. Prof. Arthur S. Sloan of Cedarville College took for his subject "Adaptability."

Rev. Lee Brown of Greenfield spoke on the theme, "The Big Brother in the Sunday School."

The pastor of the Tabernacle Baptist Church of Columbus, Rev. E. L. Averett delivered the third address.

## THIS EIGHTY ACRE FIELD OF WHEAT PRODUCED 35 BUSHEL PER ACRE

The above cut shows one of the largest and best fields of wheat in the county, grown by Mart L. McCoy, on the Prairie pike. Both the yield of 35 bushels per acre on the entire field of eighty acres, and the quality was unusual, even in this exceptionally good year. Mr. McCoy's entire crop of 125 acres averaged right around 32 bushels per acre. The picture conveys a splendid idea not only of a typical Fayette county wheat field, but also of the magnificent stretches of farm land which make up this garden-spot county.

## FARM NOTES

### FAKES IN SEED WHEAT.

A new name to an old variety of wheat improves its selling qualities in the hands of an unscrupulous dealer. High sounding names and extravagant prices go together. Generally the claim is made that less seed per acre is required. One peck per acre is the recommendation for some of these. Since so little seed is required, the price is at least correspondingly high.

Within the past few years one of these varieties was distributed under the name of Marvelous, Miracle and Stoner. On investigation this was not found to be superior to the good, standard varieties when seeded at the same rate. If extravagant claims are made for wheat, it is probably one of the old varieties under a new name.

It is not necessary to change seed wheat every 2 or 3 years to avoid danger of running out. As long as reasonable care is taken to prevent mixing with inferior varieties or the introduction of weed seeds, there is no advantage in changing seed unless it is possible to secure one of the high yielding varieties which is better adapted to one's soil and climate than one usually grown.

### TO ENTERTAIN FARMERS.

A cross section of the manifold agencies of the College of Agriculture to boost Ohio's agriculture to a higher plane may be seen at the state fair. Representatives will be on hand to discuss questions with prospective students, and to talk over matters related to farmers' institutes, extension schools, correspondence courses, county agricultural agents, cow testing associations, bulletins and personal farm problems. Motion pictures and educational exhibits will be on display. The farmers of Ohio are invited to make the headquarters of the College of Agriculture their headquarters during the fair.

### LESS OATS; MORE WHEAT.

Oats is a crop which must give way to wheat. At present prices the market value of an acre of oats is not so high as the market value of the same acre of wheat. Those whose opinions are worth most feel confident that the present demand for wheat will continue for some time. If the wheat crop fails there is still a chance for oats. The Ohio Soil and Crop Improvement Committee, therefore, feels safe in urging the substitution of wheat for oats both as a patriotic duty and as a good business proposition.

### LIME THE WHEAT.

Five bushels more wheat per acre have been produced on manured and fertilized soil at the Ohio Agricultural Experiment Station by the use of lime. On very thin soils, the use of lime often shows very marked results. However, lime will not take the place of fertilizer and manure. Used in addition to these materials, lime can be expected to give a return for the investment, especially if the other crops following in the rotation are to be taken into consideration.

### WAR PRODUCTS AT FAIRS.

Exhibits of boys' and girls' war crop products as well as articles of sewing are being exhibited at most of the county fairs in Ohio. Considerably over 10,000 Ohio boys and girls have undertaken to do their bit this summer in helping their country in the war, and all are eligible to exhibit their products. The youngsters have been aided in their efforts by the College of Agriculture, which has organized them for this work.

### NOTICE OF APPOINTMENT.

Estate of John A. Parrett, deceased. Notice is hereby given that Samuel H. Parrett has been duly appointed and qualified as Administrator with the will annexed of the estate of John A. Parrett, late of Fayette County, Ohio, deceased.

FRANK M. ALLEN,  
Judge of the Probate Court.  
No. 2915. Fayette County, Ohio.

## TIME

Time how quickly you pass away. Counting the hours of our life day by day;

So many things we would like to do. But time is so short, we do but few.

Time will not wait but hurries on; Waste one hour and forever 'tis gone; Gone with the years that quickly fly. Turning youth to age, as they pass by.

There must be work and also play. To make the hours golden from day to day;

So snatch from time the happy hours And weave them into a garland of flowers.

A garland through all of the years to wear. A memory of hours that were bright and fair;

Time may go on with flying feet. We mind it not if some hours are sweet.

Waste not your time in vain regret. Make each hour golden, fume not or fret;

Time is yours to use as you will. But time is flying, 'tis never still.

—May M. Duffee.

## FOREST FIRES

(By American Press)

Missoula, Mont., Aug. 23.—United States forestry officials said they were facing the worst fire situation that has arisen in western Montana and Idaho since the district was swept by a general conflagration in 1910. A rapidly growing fire west of Lolo Hot Springs was fanned beyond all control by a gale and drove a big crew of fire fighters in a rout before it. A large fire near Seeley Lake also is spreading, but is moving away from the many summer homes which line the shores of the lake. Fires just across the state line in Idaho in which several hundred men have been working for a week have been surrounded by fire lines and will be restricted unless another gale should arise.

## 67TH ANNUAL STATE FAIR NEXT WEEK

Columbus, O., August 23.—Next Monday morning Ohio's sixty-seventh annual State Fair—a "win-the-war" exposition—will be opened in this city and will continue in progress, day and night, through Friday. The widespread interest that has been manifested by agricultural and city folks in this year's exposition, the urging of farmers to attend by Governor Cox and the importance of the fair in connection with the war message an attendance that will set new records.

The fair grounds has been astir with activity the past week. Workmen have been getting things in readiness for the opening and exhibitors, more than ever before, have been moving in. Entries in all departments surpass those of former years in points of size and variety. Practically every inch of exhibition space has been reserved. The race track program and the special amusement attractions are of the highest order. "With favorable weather, it undoubtedly will be the greatest fair ever held in the good old Buckeye State," is the prediction of E. V. Walborn, Manager.

There will be a strong military touch to the exposition. Several hundreds of federalized Ohio National Guardsmen will be quartered on the flag-bedded grounds during the fair. These soldiers are awaiting orders to entrain for the camp at Montgomery, Ala. Cavalrymen among them, who have 40 trained horses in their keeping, will perform maneuvers daily in front of the grandstand, and infantrymen will appear in drills.

## WANTS PEACE

London, Aug. 22.—The pope's peace note is in absolute harmony with the aims of the Austro-Hungarian government, according to advices reaching here from Vienna. Austro-Hungary, it is said, is willing to evacuate occupied territories and renounce claims to indemnities once the pope's ideas of disarmament, international arbitration and freedom of seas are guaranteed and world peace is carried out, but all the consequences deducible from the pope's proposals must be understood to be included therein, namely, the disappearance of the British naval bases at Gibraltar, Malta and the Suez canal and also the Italian abandonment of Verona.

## HERE'S FLAG OUR SHIPS WILL TAKE TO EVERY CORNER OF SEVEN SEAS

The United States Shipping Board's New Official Flag

In a few weeks there will begin to appear on the seven seas a new flag, symbolizing the return of the United States to all its fellowship with the leading maritime nations of the earth. The new standard is the recently adopted official flag of the United States Shipping Board, which is creating a national merchant fleet. On a white ground is shown the national shield in full colors of red, white and blue, supported by a blue anchor, and flanked on the left by the letters "U. S." and on the right "S. B." the proportions of the flag, in the size to be flown by a ship of 8,000 tons, are six feet hoist to nine feet length.

The flag was designed by Charles Collins, a Boston architect and designer. Mr. Collins made several sketches, showing different designs, and with them enlisted the interest of Henry Howard, the shipping board's director of recruiting, whose headquarters are at the Boston custom house. Mr. Howard took the designs to Washington and placed them before the board, which adopted the one shown here.

## GERMAN AIRPLANES SHELL THE COAST TOWNS OF ENGLAND

(By American Press)

London, Aug. 23.—German airplanes again raided British coast towns. It was estimated by officials that 11 persons were killed and 13 injured at Dover, a naval base, and Ramsgate. Bombs were dropped also on Margate, but they caused no casualties. It was announced that three of the raiders were brought down by gun fire.

The admiralty has issued the following amplification of Lord French's report: "Ten enemy airplanes of the Gotha type were attacked by naval airplanes in the vicinity of Ramsgate. The enemy machines, which were flying at a height between 11,000 and 12,000 feet, were closely engaged and three machines were shot down by a royal naval air squadron machine close to the coast. The remaining seven Gothas returned seaward, followed by numerous naval air craft. The pilot of a royal naval air squadron 'plane which chased the raiders over sea reports that after firing 300 rounds of ammunition into one of the enemy machines both gunners appeared to have been killed. There was no fire in reply, even at twenty yards distant."

## URGING FARMERS TO SOW RECORD CROP

(By Associated Press Dispatch)

Columbus, O., August 22.—With the aim of putting Ohio's wheat yield for 1918 at 60,000,000 bushels—more than this year's banner crop—the Ohio Agricultural Experiment Station is sending out its August monthly bulletin to tell farmers how to sow their wheat this fall. Here are the tips suggested for a big crop:

Seed from the tenth to the twentieth of September in Northern Ohio, from the twentieth to the twenty-fifth in the central part, and from the 25th to the 30th in the southern. Where jointworm occurred in western Ohio this year, it will be avoided next season by seeding about a week earlier than these dates.

Seed seven to eight pecks to the acre or even more on poor soil and drill an inch or two inches deep. Deep drilling, like deep plowing, has been unprofitable at the Experiment station. Drilling fields cross-wise after the first seeding has not paid for the extra work.

New drills that drop seed in rows four inches apart have not been better than the common eight-inch drills. Use 200 to 300 pounds of acid phosphate to the acre and put on any available barnyard manure even if no more than three or four tons to the acre.

If you wish beautiful, clear, white clothes, use Red Cross Ball Soap. All grocers.

## TEACHERS' EXAMINATION

The second examination for teachers of the city schools of Washington C. H., Ohio will be held at the High School building, Thursday, August 30, 1917. Examination will begin promptly at 8:30 o'clock.

# MORE ORDERS COMING ON COAL CONTROL

(By American Press)  
Washington, Aug. 23.—At a conference with the federal trade commission President Wilson took up the whole subject of war prices and went over in detail the commission's figures on production costs. Most of the time was given to a study of the commission's report, just completed, on the cost of producing steel.

Further measures to control the coal industry came in for discussion and it was learned that the order fixing a scale of prices for coal at the mouth of the mine for the entire country will be followed closely by others designed to give the government a complete control of the industry, from mine to consumer.

For several days now the president has given his attention almost entirely to the work the federal trade commission is doing. Officials with whom he has consulted are of the opinion that a definite price policy will be formulated in the very near future. Coal probably will be finally disposed of first and steel next.

The trade commission's steel investigation revealed that it will be almost impossible to fix a price for steel as was done in the case of coal. Varying costs in different plants make it impracticable, it is said, to make a flat price and, too, costs are continually changing. The plan most favored by trade commission members is one under which the government would determine the cost of producing definite orders and would pay a fair percentage of profit on each order.

The chief disadvantage of this suggestion is that it provides no plan for protecting the general public, in its purchases, and protection of the public, the president has emphasized, is one of the chief aims of the administration in enforcing a reduction in prices. The administration, however, is understood to be standing behind the Pomerene bill pending in congress, which would give the government virtually the same powers in fixing prices on steel and other materials as is now the case with coal.

To continue the government control over coal, the president yet has to fix bituminous wholesale and retail prices and must issue regulations governing distribution and apportionment as between different parts of the country. Anthracite, too, it is understood, will be taken up and prices fixed throughout the industry. At present anthracite prices at the mines are kept down under a voluntary arrangement reached some months ago by the producers with the federal trade commission, but no way has been adopted for dealing with wholesalers and retailers.

Probate Court, Fayette County, Ohio

George E. Hamilton, as Administrator of the Estate of E. C. Hamilton, Plaintiff,

vs.

Grace Weir, John Edgar Johnson, et al. Defendants.

No. ....

John Edgar Johnson who resides at Room 630, 116 West 39th street, New York City, New York county State of New York, will take notice that George E. Hamilton, Administrator of the estate of E. C. Hamilton, deceased on 8th day of August, 1917, filed his petition in the Probate Court, Fayette County, Ohio, asking that the personal estate of said decedent be insufficient to pay his debts and the charges of administering his estate;

That he died seized in fee simple of the following described real estate to-wit:

Situate in the County of Fayette, State of Ohio, and in the City of Washington and bounded and described as follows:

Beginning at a point S. 45 degrees W. of, and distant 53 1/4 feet from the North corner of Out Lot No. 43 in said town (Now City) and in the East line thereof; thence North 45 degrees W. along Market street 45 feet to the corner of a lot owned by Ada Herman; thence South 45 degrees E. with said last mentioned lot, 10 poles to a stake; thence North 45 degrees E. 45 feet to a stake; thence North 45 degrees W. 10 poles to the beginning point.

That the widow, the defendant, Lucie S. Hamilton, is entitled to dower in said real estate, and the Defendant Grace Weir claims to hold a mortgage thereon for \$..... The prayer of the petition is for the assignment of dower in said property, that Grace Weir be required to answer, setting forth the particulars of her said mortgage lien thereon and that said property be sold to pay the debts and charges aforesaid.

Said John Edgar Johnson is hereby notified that he has been made party Defendant, herein to said petition, and that he is required to answer the same on or before the 22nd day of September, 1917.

FRANK A. CHAFFIN,

Attorney for Administrator.

## WEDNESDAY GAMES

(By American Press)

Chicago, Aug. 23.—Boston cut Chicago's lead down to two games yesterday when they won the final game of the series in a loosely played game, thereby getting an even break in the series. Claude Williams was unsteady and finally gave way to Danforth after the bases were filled in the seventh. The visitors then proceeded to bunch hits and, with the aid of some erratic playing clinched the game.

MINERS AFFECTED

(By American Press)

Springfield, Ill., Aug. 23.—Eighty thousand Illinois coal miners may strike as a result of the fixing of coal prices by President Wilson. Frank Farrington, president of the Illinois district, United Mine Workers of America, said. The miners figured on getting a wage increase Sept. 1, but the margin of profit allowed the operators by the prices fixed is insufficient to warrant the operators granting the increase. Farrington declared

HAVE FRESH BEETS

They should be placed in ventilated barrels, loose boxes, or better still in crates.

They should be pulled and the tops cut off when the soil is dry.

If sufficient space is available in the cellar, it is a good plan simply to place them in small piles along the wall.

Storage in large piles should be avoided, as it is liable to cause heating and decay.

Write for Farmers' Bulletins 847 and 879, United States Department of Agriculture, Washington, D. C. These give full instructions free of charge.

The Classified column has a buyer.

## MAKES WRONG CLAIM AND WIFE WALKS IN TO GET EXEMPTION

When Frank Bennett, of Bloomingburg, received notice to report for examination for military service, he filed a claim for exemption on the grounds that his religious belief did not permit him bearing arms, but made no mention of the fact that he had a wife and five small children, the oldest being six or seven years, depending upon him for support.

As religious claims do not prevent a man from being certified over, and as the Local Board could do nothing else but certify him over for military service, this was done.

The true state of affairs developed this week when the wife walked to this city from Bloomingburg and appeared at the Local Board office to obtain exemption for her husband. She told the story of the little family of five very small youngsters which was dependent upon the labors of her husband and herself.

The Local Board is now endeavoring to see what can be done in the very unusual case, and a special ruling may be necessary before the man can be left at home with his little flock.

## OFFICERS CHOSEN FOR SCHOOL OF METHODS

The Young People's Union of the Ohio M. P. Conference closed a splendid program of the School of Methods at Sabina Thursday. This was attended by over 100 registered delegates. Speakers have gone beyond expectations in messages of helpfulness and uplift, and were applauded heartily and all pronounced the meeting a big success.

Rev. G. H. Harper, who has been president of the Young People's Union for five years, retires, leaving the following corps of officers: President, Rev. L. C. Moberg; vice president, Rev. C. B. Doty; secretary-treasurer, Miss Mary Custis, Reeseville; Supt. of Junior and Intermediate Christian Endeavor, Mrs. J. L. Buckley; Supt. of Christian Citizenship, Rev. B. F. McKinnon; Supt. of Teachers' Training, Rev. J. L. Buckley; Supt. of Organized Adult Bible Class, Rev. F. W. Obee; Supt. of Home Department, Mrs. Hattie Titus, Springfield; Missionary Supt., Rev. H. E. Genheimer; Rural Community Supt., Rev. H. E. Orvick.

Arrangements were made for the holding of the School of Methods next year and Rev. G. C. Fultz was elected Dean.

## PLANS FALL RACE MEETING HERE

Robert Allemang, of Leesburg, was in the city Wednesday interesting local men in a race meeting to be held at the Fayette County Fair grounds about October 1st, providing proper interest is manifested in making the meet a success.

He met with much encouragement and expects in the near future to be able to announce definite dates and races.

Such a meeting would be popular among horsemen in general, it is believed, and would draw a large number of lovers of the sport to the ringside.

A two or three day meet is planned, with purses worth while.

## M'GHEE MOVING IN COAL PROBES

(By American Press)

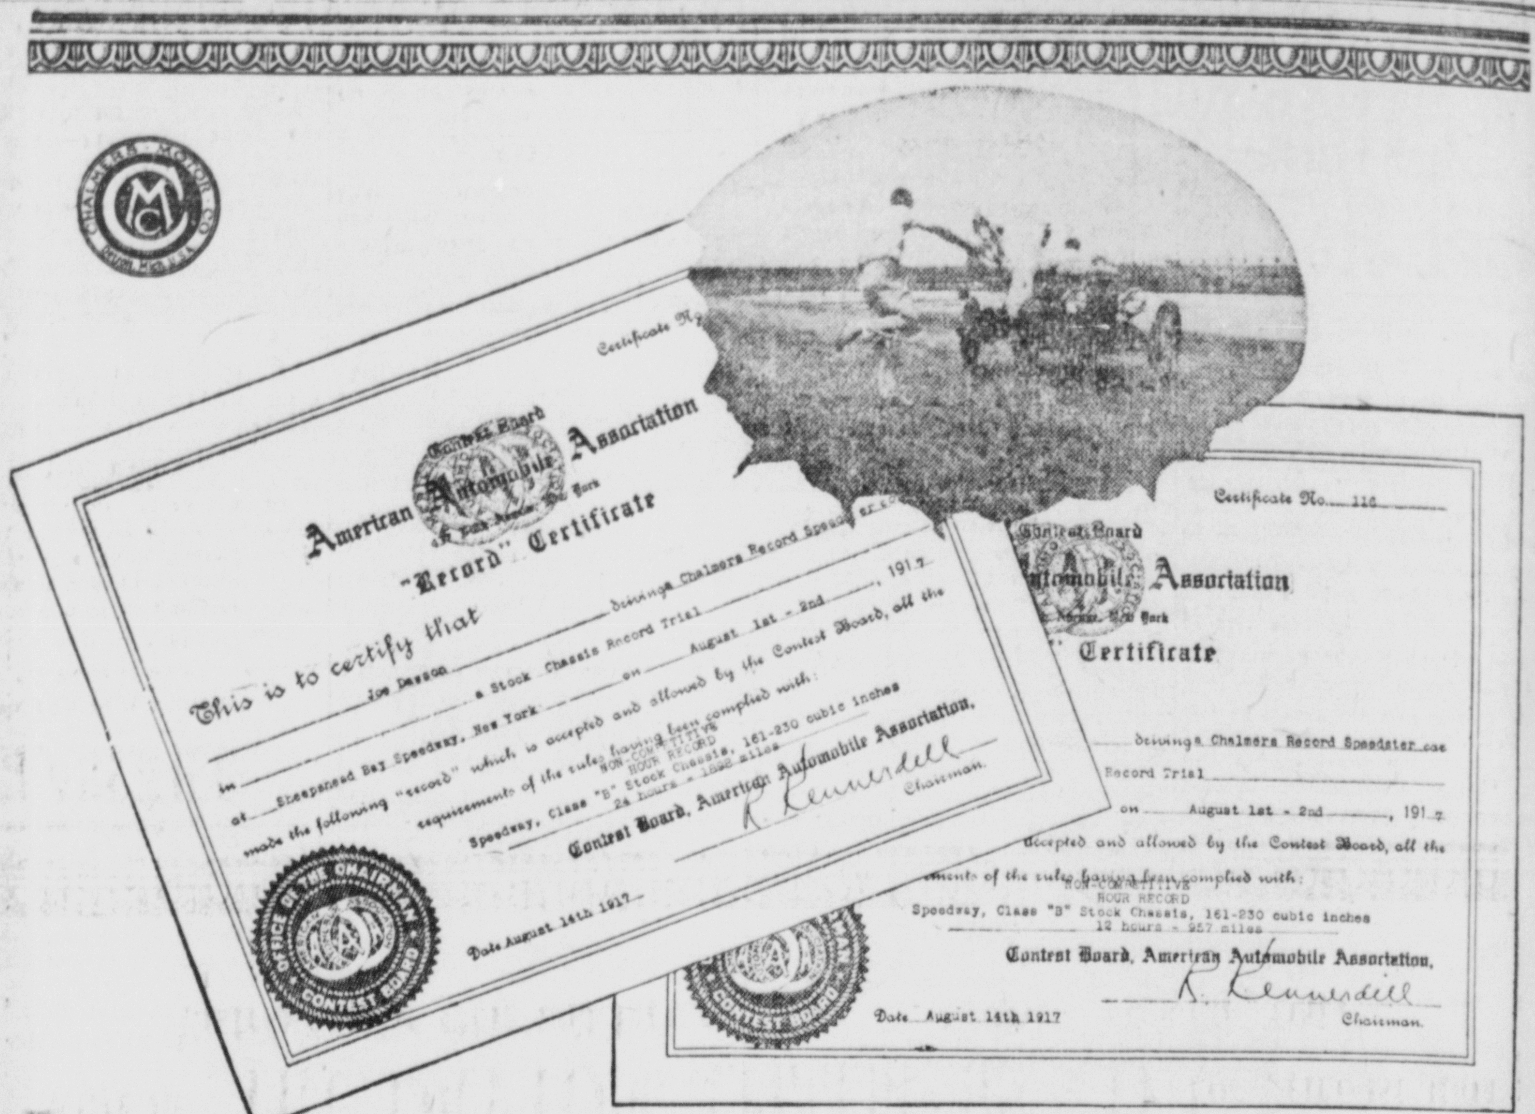

Columbus, Aug. 23.—The state of Ohio will save more than a quarter of a million dollars as a result of the action of President Wilson in fixing the price for coal at the mines. The best price offered the board previous to the action at Washington was from \$1.75 to \$2 per ton above the price fixed by the president.

Attorney General McGhee, who has been working on the coal situation for some weeks, sent out letters to 500 mayors in the state, asking them to report to him at once the prices of coal in their cities and also to report regularly every two weeks any changes in prices. The mayors are also asked to report excessive prices in their cities to prosecuting attorneys for action against the offenders.

The industrial division of the state branch of the national council of defense is busy considering the matter of shipping, distributing and shrinkage allowances to be made on top of the f. o. b. mine charges to be permitted by the national government. Governor Cox and F. C. Croxton readily agreed on a schedule of figures recently for the Columbus point, but State Mine Inspector John M. Roan violently assailed the prices reached. He declared that they were far too low. Mr. Roan insisted that before the state took action in the matter there should be a hearing in which coal people should be represented.

## CHALMERS POWER, SPEED and STABILITY PROVED

Fifteen New Speed Records Demonstrate Chalmers  
Perfect Performance

The 15 New Chalmers Records Officially Approved by the American Automobile Association

NEW MILE RECORDS					
1 mile	44.37	4 miles	2:54.61	15 miles	10:58.55
2 miles	1:27.44	5 miles	3:37.83	20 miles	14:30.30
3 miles	2:11.80	10 miles	7:16.80	25 miles	18:15.67
				50 miles	36:12.93
				75 miles	54:32.45
				100 miles	1:12:10.17

NEW TIME RECORDS			
1 hour	83 miles	12 hours	957 miles
		24 hours	1898 miles

Traveling farther and faster than any human being has ever traveled on land, sea or air in 24 hours, Joe Dawson in a stock Chalmers Speedster Chassis has smashed all Speedway records by covering the astonishing distance of 1898 miles in a twice-around-the-clock race against time on the Sheepshead Bay Speedway.

The old twenty-four-hour record was 1819 miles, held by a Hudson. Chalmers bettered this wonderful mark by 79 miles.

The old one-hour mark of 77 miles, also made by a Hudson, the Chalmers bettered by six miles.

The 100-mile record, also held by a Hudson stock car, is 80 minutes, 21.40 seconds. Chalmers covered this distance in 8 minutes, 11.23 seconds less time.

The 12-hour mark of 923 miles made by a Hudson was bettered by the Chalmers which ran 957 miles in 12 hours—34 miles farther.

The contest Board of the American Automobile Association has approved and accepted these performances as official records. The trial was made under its supervision and was timed with the automatic electric timing device.

Great as was the performance of the Hudson in establishing such wonderful marks, the achievement of the stock Chalmers Speedster chassis was all the more wonderful, particularly because of its motor piston displacement of 224 cubic in. This test of endurance is conclusive evidence of the economy of the small, powerful Chalmers motor.

1898 miles in 24 hours—that is approximately the distance from Chicago to San Francisco.

In the first hour the Chalmers covered 83 miles; in the twenty-four hour over 81 miles; and for the entire distance the average was 79-1/12 miles per hour.

Any engine that can travel at this terrific speed day and night for 24 hours on a day that averaged 90 degrees in temperature and without the slightest mishap is certainly an engine to marvel at.

For sheer endurance, for ability not only in speed but in sustained speed, this performance is without equal in history; and yet it is a regular stock Chalmers engine.

Come and see the Autumn and Winter Chalmers—there are eleven of them.
